Ex stock : Non

Standard packaging : 1.000 pcs box

Delivery time for personalised product : 3 to 4 weeks

MOQ for stock product : 1.000 pcs

HS Code : 85 23 52 10

The RFID fabric wristband has the same characteristics as a standard fabric wristband (tear-proof, durable and waterproof), except that it has an embedded RFID chip. It is a single-use wristband that is closed with a non-reusable snap or aluminium ring that must be crushed with pliers. Once closed, it is impossible to remove the bracelet without cutting it with scissors.

The advantages of RFID

RFID technology allows contactless use for

- opening doors, lockers...
- contactless payment

It also allows the limitation of the use by programming schedules.

Characteristics of the fabric wristband with RFID chip

Available chips :

- Mifare
- EM
- capacity to choose from

Dimensions :

- 15 x 350 mm or 15x260 mm
- other sizes available on request
