Tyvek bracelet personalized with the image of your event

The tyvek wristband is made with non removable paper to reduce waste.

PRODUCT ADVANTAGE: The paper covering the adhesive side stays attached to the wristband to eliminate waste during installation.

- Don't hesitate to press more and a little longer on the white part of the adhesive for a better bonding.

The tyvek bracelet can be customized with a logo, images and text from 100 pieces ordered (provide us with a vectorized logo and the type of font desired). It is available from stock in a wide range of colors. If you wish, we can also produce it in the color of your choice from 60 000 pieces ordered.

The tyvek event wristbands are numbered consecutively to avoid any fraud.
