HS Code : 63 07 90 1000

Available colors :

This control wristband is an eco-responsible model since it is entirely recyclable. Its fabric and clip are made of recycled material.

New from Etigo: its perforations are pre-cut, which prevents the fabric from fraying when cut, ideal for children's sizes or small wrists.

A single-use recycled fabric bracelet

The fabric bracelet closes and adjusts with a small plastic snap. Once the pressure is tightened, it is impossible to remove or exchange the bracelet with another person. It can be used for several days to control access to an event or a specific site (festival, concert, sports competition, meeting, camping, swimming pool, hotel...).

The fabric bracelet can be ordered from 100 pieces. It can be customized with an image, a logo and a text (sublimation marking). Its weaving can be composed of 8 different colors.
